Intuit | North America

Mid-Market Check-In: Takeaways from our Conversation with IES Customer and Partner

IES customer Ed Sutton and partner Jordan Fladdell from Aprio highlighted strong mid-market traction for Intuit Enterprise Suite, with early workflow and services consolidation evident, and demand beyond Intuit’s installed base. Room for improvement exists on Partner enablement and AI features.

Last week, we hosted a panel discussion with Ed Sutton, an early customer of Intuit Enterprise Suite (IES) and CFO of a Real Estate firm, and Jordan Fladdell, Partner and Managing Director of Technology Advisory at Aprio, a top-20 CPA firm and early IES partner. **The conversation served as a pulse check on Intuit’s push into the mid-market, which in our view, can underpin durable topline acceleration and operating margin expansion through FY30 (see more here: [Delivering 20% Growth Unlocks the 'Triple Double' Bull Case](#)).** At a high level, the panel reinforced IES as a strong fit for multi-entity, service-oriented businesses where QuickBooks fell short against rising complexity, yet traditional higher-end ERP platforms like NetSuite still feels too heavy for current needs. While IES currently sits between both, our conversation suggested Intuit will continue pushing into larger, more complex businesses as capabilities scale. From the customer side, Ed described IES as a meaningfully lighter and easier-to-use option for auditable, multi-entity reporting, while also highlighting tangible ROI already showing up through the shutoff of legacy payroll, accounts payable, payments, invoicing, paper-heavy workflows, and much of the old Excel-based consolidation layer. From the partner side, Jordan added a broader field view, arguing IES is no longer just a tool to keep existing QuickBooks customers from graduating out, but is increasingly opening a larger opportunity as partners begin to see demand both inside and outside Intuit’s installed base, with adoption likely to build further once industry credibility, peer references, and accountant buy-in improve. Additionally, the panel added balance to the IES story: while implementation, data readiness, workflow breadth, benchmarking, and AI capabilities still need to improve, Ed and Jordan both view those gaps as a meaningful runway for Intuit to enhance the product, improve time-to-value, and expand share over time. **The discussion gave us more confidence the mid-market opportunity can drive both stronger retention and broader wallet-share expansion over time.**

Below, we frame the discussion around five core debates on the stock, where we think the panel added useful perspective on both the opportunities and questions around Intuit’s defensibility, pricing durability, competitive positioning, mid-market expansion, and longer-term monetization.

Morgan Stanley does and seeks to do business with companies covered in Morgan Stanley Research. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of Morgan Stanley Research. Investors should consider Morgan Stanley Research as only a single factor in making their investment decision.

For analyst certification and other important disclosures, refer to the Disclosure Section, located at the end of this report.

1) Can AI Reinforce Intuit's Moat Rather Than Disrupt It?

As we highlighted in our note [Software Gut Check – AI IS Software](#), a principal fear of AI disruption revolves around frontier models increasingly absorbing the application layer by orchestrating tools, data, and accounting workflows through a single interface, and over time reducing the need for standalone software. Our panel suggests this risk is overstated for Intuit. Ed made a key point very directly: customers are not going to “vibe code” their general ledger. In his view, they would rather pay Intuit for a trusted, low-cost system of record than try to build and maintain one themselves, especially when core accounting workflows carry audit, compliance, and regulatory consequences if something goes wrong. From our perspective, this is a major implication for the debate, as it points to AI likely sitting on top of the core ledger rather than replacing it. Jordan's comments reinforced a similar point from the partner side, with system-of-record vendors still controlling the workflow, data foundation, and customer relationship. In our view, Intuit's data advantage (sourced from ~100 million consumers and ~10 million businesses on the platform) gives it a meaningful edge over emerging vendors as it accelerates product innovation and improves customer ROI as models get better. Lastly, Ed's “rear-view mirror versus windshield” analogy helped frame the AI opportunity ahead: current AI already appears valuable in lower-level bookkeeping and transaction-coding tasks, but the larger opportunity still lies ahead as better agents move from summarizing what already happened toward helping customers see what is coming next.

2) Can Rising ROI Sustain Pricing Power?

The second key debate around the stock centers on whether Intuit can preserve pricing power as AI lowers perceived software value and gives customers access to cheaper external tools. Our panel suggests pricing durability is stronger than many fear, so long as Intuit keeps delivering visible ROI. Ed was especially clear on this point. Running a high-single digit million dollar revenue business, he mentioned the initial IES setup cost of about \$58K felt meaningful upfront, but the payback is already tangible. Most notably, he pointed to roughly 60 hours of payroll work eliminated over the last 17 months, along with faster access to information, fewer manual dependencies, and the shutdown of multiple legacy tools spanning payroll, accounts payable, payments, invoicing, and Excel-heavy consolidation work. He also noted his business now runs across roughly nine entities, with each entity standing alone correctly and the consolidated view working cleanly, which should make downstream accounting and tax work easier. Importantly, he noted if Intuit materially raised price from here, he would likely still pay given the switching costs, disruption, and added labor required to rebuild those workflows elsewhere. While current value appears to sit well above current pricing, Ed and Jordan both reinforced an important nuance: future pricing durability will depend on continued product innovation so customers keep seeing incremental value as the platform expands. Ed noted pricing power becomes harder to sustain once the initial ROI wave has been realized and future increases are no longer paired with clear functional gains. Jordan extended this point, arguing software monetization is likely to shift over time from seat-based pricing toward more usage- and agent-based models. In our view, the read-through remains constructive: pricing durability looks

solid when Intuit is eliminating labor, consolidating spend, and making the finance function easier to run, but the next leg of monetization will still require continued product improvement and deeper workflow expansion.

3) Does IES Have a Clear Right to Win in the Mid-Market?

The third core debate centers on whether Intuit Enterprise Suite can compete effectively in the mid-market, or whether customers with rising complexity will still default to legacy ERP vendors like NetSuite, Sage Intacct, or Acumatica. Our conversation suggested IES is carving out a real wedge in an attractive part of the market, especially among multi-entity, service-oriented businesses whose needs have moved beyond core QuickBooks capabilities but still do not justify a heavier ERP stack. Ed's experience helps illustrate this fit, as his nine-entity business was already well down the path with NetSuite before ultimately choosing IES as one of its earliest customers. His takeaway was simple: NetSuite looked powerful, but too heavy for what the business actually needed, while IES solved the highest-priority gaps around consolidated reporting, intercompany transfers, and auditable controls. Jordan reinforced a similar point from the partner side, arguing many customers historically left QuickBooks not because they needed a full ERP, but because they needed stronger multi-entity functionality. He called out real estate, medical, dental, and other professional-services verticals as especially well suited for IES, while also acknowledging clearer limits today in inventory-heavy, manufacturing, supply-chain, foreign-currency, and more specialized construction environments. In our view, this near-term opportunity alone gives Intuit meaningful runway for growth, while rising confidence in new capabilities for larger customers creates a path to expand beyond this pocket of the mid-market.

4) Can IES Shift From Defense to Offense in the Mid-Market?

The fourth debate revolves around whether IES can transition from a defensive product into an offensive one, with Intuit taking net new share in the mid-market rather than simply retaining customers who might otherwise outgrow QuickBooks. Our discussion suggests this shift may already be starting. In a follow-up conversation after the panel, Jordan mentioned partners are already seeing demand from both existing Intuit customers and businesses outside the installed base. Management made a similar point on the Q2 call, noting IES is now adding net new customers beyond the base. Further, Jordan argued the larger unlock may still lie ahead, since ERP adoption tends to be highly reference-driven and often accelerates once a product earns enough credibility for accountants, partners, and peer networks to actively recommend it. In our view, this suggests current traction may still sit well below the future demand curve. Lastly, Jordan highlighted the setup remains early and there is work Intuit needs to do to mature its go-to-market motion in the mid-market. That said, Aprio formally launched its IES practice only in September 2025, has already generated north of seven figures in services revenue in less than six months, and is drawing from a base of roughly 12,000 Intuit-related clients. Taken together, early partner traction, initial wins beyond the installed base, and growing market credibility suggest IES is evolving into a more offensive growth story.

5. How Large Is the Online Services Opportunity?

A fifth debate centers on whether Intuit Enterprise Suite is mainly a software upsell, or whether it can become the foundation for a broader online services opportunity over time. Our panel pointed toward the latter. On the customer side, Ed described meaningful consolidation already happening across payroll, accounts payable, payments, invoicing, paper-heavy processes, and much of the old Excel-based consolidation layer, with roughly 60 hours of payroll work eliminated over the last 17 months. This shows customers are already pulling spend and workflow onto the platform before Intuit Enterprise Suite is fully built out. On the partner side, Jordan framed the bigger opportunity less as selling another accounting seat and more as changing the service model itself. In his view, cleaner books, stronger workflow integration, and better visibility can move accountants away from lower-value bookkeeping and compliance work toward higher-value advice. In our view, this broadens the opportunity well beyond software subscriptions. Intuit Enterprise Suite can increasingly serve as the financial operating layer, giving Intuit more ways to capture workflow spend, expert services, and, over time, AI plus human intelligence monetization.

Risk Reward – Intuit (INTU.O) Top Pick

Durable EPS Grower Showing Macro Resiliency

PRICE TARGET \$580.00

~20x Base Case CY27e EPS of \$28.99, implying a PEG ratio of 1.3x, in-line with large cap software peers at 1.2x.

Consensus Price Target Distribution

RISK REWARD CHART AND OPTIONS IMPLIED PROBABILITIES (12M)

Key: — Historical Stock Performance ● Current Stock Price ◆ Price Target

Source: Refinitiv, Morgan Stanley Research, Morgan Stanley Institutional Equities Division. The probabilities of our Bull, Base, and Bear case scenarios playing out were estimated with implied volatility data from the options market as of 20 Mar 2026. All figures are approximate risk-neutral probabilities of the stock reaching beyond the scenario price in either three-months' or one-years' time. View explanation of Options Probabilities methodology [here](#)

OVERWEIGHT THESIS

Intuit is in the early days of two compelling product cycles: 1) Mid-Market Accounting and 2) Assisted Tax. These product cycles combined with solid yields on efficiency initiatives drive durable high-teens EPS growth, putting Intuit in rarified air among large-cap software peers. Durable mid-teens revenue and high-teens EPS growth are not priced in with the stock trading well below historical PEG ratio of 1.8X and below large cap software average of 1.7x.

Risk Reward Themes

Secular Growth: *Positive*
Technology Diffusion: *Positive*

View descriptions of Risk Rewards Themes [here](#)

BULL CASE \$730.00

~24x Bull Case CY27e EPS of \$30.20

Monetizing the Platform.

Intuit is able to monetize the QBO platform as well as sustain rapid sub growth, resulting in Quickbooks Online growth of 22% through CY27. TurboTax grows 11% annually through CY27 by gaining share in the Assisted Category, alongside beneficial pricing trends. Total Revenue grows at a CAGR of ~15% while margins expand due to improved monetization, lifting CY27 EPS to \$30.20. Stock trades to ~20x CY27e EPS, or ~1.4x PEG.

BASE CASE \$580.00

~20x Base Case CY27e EPS of \$28.99

Focus on Higher Value Solutions Drives Faster Margin Expansion.

QBO add-ons and other high value solutions gain traction alongside new sub adds, bolstering Global Business Solutions Group Revenue to 16% growth through CY27. Consumer grows ~9% annually through CY27. Margins improve to 41.7% in CY27, resulting in EPS of \$28.99. Stock trades to ~20x CY27 EPS estimate, implying a PEG of ~1.3x, in-line with large cap software peers.

BEAR CASE \$300.00

~12x Bear Case CY27e EPS of \$25.20

Competition heats up and QBO falls short of expectations.

Online proves to be a more competitive market for both tax and small business resulting in price and market share pressure. Competition constrains pricing and units while investments in int'l expansion fail to pay off. Top-line growth of 11% embeds Consumer growth of 6% and SMB growth of 14% thru CY27. Margin expansion is constrained, resulting in CY27e EPS of \$25.20. The stock trades at 12x CY27e EPS.

STOCK RATINGS

Morgan Stanley uses a relative rating system using terms such as Overweight, Equal-weight, Not-Rated or Underweight (see definitions below). Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold and sell. Investors should carefully read the definitions of all ratings used in Morgan Stanley Research. In addition, since Morgan Stanley Research contains more complete information concerning the analyst's views, investors should carefully read Morgan Stanley Research, in its entirety, and not infer the contents from the rating alone. In any case, ratings (or research) should not be used or relied upon as investment advice. An investor's decision to buy or sell a stock should depend on individual circumstances (such as the investor's existing holdings) and other considerations.

Global Stock Ratings Distribution

(as of February 28, 2026)

The Stock Ratings described below apply to Morgan Stanley's Fundamental Equity Research and do not apply to Debt Research produced by the Firm.

For disclosure purposes only (in accordance with FINRA requirements), we include the category headings of Buy, Hold, and Sell alongside our ratings of Overweight, Equal-weight, Not-Rated and Underweight. Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold, and sell but represent recommended relative weightings (see definitions below). To satisfy regulatory requirements, we correspond Overweight, our most positive stock rating, with a buy recommendation; we correspond Equal-weight and Not-Rated to hold and Underweight to sell recommendations, respectively.

Stock Rating Category	Coverage Universe		Investment Banking Clients (IBC)			Other Material Investment Services Clients (MISC)	
	Count	% of Total	Count	% of Total IBC	% of Rating Category	Count	% of Total Other MISC
Overweight/Buy	1528	41%	444	49%	29%	690	42%
Equal-weight/Hold	1590	43%	374	41%	24%	725	44%
Not-Rated/Hold	4	0%	1	0%	25%	1	0%
Underweight/Sell	588	16%	87	10%	15%	220	13%
Total	3,710		906			1636	

Data include common stock and ADRs currently assigned ratings. Investment Banking Clients are companies from whom Morgan Stanley received investment banking compensation in the last 12 months. Due to rounding off of decimals, the percentages provided in the "% of total" column may not add up to exactly 100 percent.

Analyst Stock Ratings

Overweight (O). The stock's total return is expected to exceed the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

Equal-weight (E). The stock's total return is expected to be in line with the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

Not-Rated (NR). Currently the analyst does not have adequate conviction about the stock's total return relative to the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

Underweight (U). The stock's total return is expected to be below the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

Unless otherwise specified, the time frame for price targets included in Morgan Stanley Research is 12 to 18 months.

Analyst Industry Views

Attractive (A): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be attractive vs. the relevant broad market benchmark, as indicated below.

Important Disclosures for Morgan Stanley Smith Barney LLC Customers

Important disclosures regarding any material conflict of interest that can reasonably be expected to have influenced Morgan Stanley Smith Barney LLC's choice of a third-party research provider or the subject company of a third-party research report, are available on the Morgan Stanley Wealth Management disclosure website at www.morganstanley.com/online/researchdisclosures. For Morgan Stanley specific disclosures, you may refer to <https://www.morganstanley.com/eqr/disclosures/webapp/generalresearch>.

Each Morgan Stanley research report is reviewed and approved on behalf of Morgan Stanley Smith Barney LLC. This review and approval is conducted by the same person who reviews the research report on behalf of Morgan Stanley. This could create a conflict of interest.

Other Important Disclosures

A member of Research who had or could have had access to the research prior to completion owns securities (or related derivatives) in the Atlassian Corporation PLC, Microsoft, Workday Inc. This person is not a research analyst or a member of research analyst's household.

Morgan Stanley Research policy is to update research reports as and when the Research Analyst and Research Management deem appropriate, based on developments with the issuer, the sector, or the market that may have a material impact on the research views or opinions stated therein. In addition, certain Research publications are intended to be updated on a regular periodic basis (weekly/monthly/quarterly/annual) and will ordinarily be updated with that frequency, unless the Research Analyst and Research Management determine that a different publication schedule is appropriate based on current conditions.

Morgan Stanley is not acting as a municipal advisor and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Morgan Stanley produces an equity research product called a "Tactical Idea." Views contained in a "Tactical Idea" on a particular stock may be contrary to the recommendations or views expressed in research on the same stock. This may be the result of differing time horizons, methodologies, market events, or other factors. For all research available on a particular stock, please contact your sales representative or go to Matrix at <http://www.morganstanley.com/matrix>.

Morgan Stanley Research is provided to our clients through our proprietary research portal on Matrix and also distributed electronically by Morgan Stanley to clients. Certain, but not all, Morgan Stanley Research products are also made available to clients through third-party vendors or redistributed to clients through alternate electronic means as a convenience. For access to all available Morgan Stanley Research, please contact your sales representative or go to Matrix at <http://www.morganstanley.com/matrix>.

Any access and/or use of Morgan Stanley Research is subject to Morgan Stanley's Terms of Use (<http://www.morganstanley.com/terms.html>). By accessing and/or using Morgan Stanley Research, you are indicating that you have read and agree to be bound by our Terms of Use (<http://www.morganstanley.com/terms.html>). In addition you consent to Morgan Stanley processing your personal data and using cookies in accordance with our Privacy Policy and our Global Cookies Policy (http://www.morganstanley.com/privacy_pledge.html), including for the purposes of setting your preferences and to collect readership data so that we can deliver better and more personalized service and products to you. To find out more information about how Morgan Stanley processes personal data, how we use cookies and how to reject cookies see our Privacy Policy and our Global Cookies Policy (http://www.morganstanley.com/privacy_pledge.html). Please use the provided link to review the Terms and Conditions and Most Important Terms and Conditions for Morgan Stanley India Company Private Limited (https://www.morganstanley.com/assets/pdfs/about-us-global-offices/india/Terms_and_conditions.pdf) and the following link to review the audit report (<https://ny.matrix.ms.com/eqr/research/webapp/researchdocs/>

MSICPL_Morgan_Stanley_Research_Audit_Report.pdf).

If you do not agree to our Terms of Use and/or if you do not wish to provide your consent to Morgan Stanley processing your personal data or using cookies please do not access our research. Morgan Stanley Research does not provide individually tailored investment advice. Morgan Stanley Research has been prepared without regard to the circumstances and objectives of those who receive it. Morgan Stanley recommends that investors independently evaluate particular investments and strategies, and encourages investors to seek the advice of a financial adviser. The appropriateness of an investment or strategy will depend on an investor's circumstances and objectives. The securities, instruments, or strategies discussed in Morgan Stanley Research may not be suitable for all investors, and certain investors may not be eligible to purchase or participate in some or all of them. Morgan Stanley Research is not an offer to buy or sell or the solicitation of an offer to buy or sell any security/instrument or to participate in any particular trading strategy. The value of and income from your investments may vary because of changes in interest rates, foreign exchange rates, default rates, prepayment rates, securities/instruments prices, market indexes, operational or financial conditions of companies or other factors. There may be time limitations on the exercise of options or other rights in securities/instruments transactions. Past performance is not necessarily a guide to future performance. Estimates of future performance are based on assumptions that may not be realized. If provided, and unless otherwise stated, the closing price on the cover page is that of the primary exchange for the subject company's securities/instruments.

The fixed income research analysts, strategists or economists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality, accuracy and value of research, firm profitability or revenues (which include fixed income trading and capital markets profitability or revenues), client feedback and competitive factors. Fixed Income Research analysts', strategists' or economists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.

The "Important Regulatory Disclosures on Subject Companies" section in Morgan Stanley Research lists all companies mentioned where Morgan Stanley owns 1% or more of a class of common equity securities of the companies. For all other companies mentioned in Morgan Stanley Research, Morgan Stanley may have an investment of less than 1% in securities/instruments or derivatives of securities/instruments of companies and may trade them in ways different from those discussed in Morgan Stanley Research. Employees of Morgan Stanley not involved in the preparation of Morgan Stanley Research may have investments in securities/instruments or derivatives of securities/instruments of companies mentioned and may trade them in ways different from those discussed in Morgan Stanley Research. Derivatives may be issued by Morgan Stanley or associated persons.

With the exception of information regarding Morgan Stanley, Morgan Stanley Research is based on public information. Morgan Stanley makes every effort to use reliable, comprehensive information, but we make no representation that it is accurate or complete. We have no obligation to tell you when opinions or information in Morgan Stanley Research change apart from when we intend to discontinue equity research coverage of a subject company. Facts and views presented in Morgan Stanley Research have not been reviewed by, and may not reflect information known to, professionals in other Morgan Stanley business areas, including investment banking personnel.

Morgan Stanley Research personnel may participate in company events such as site visits and are generally prohibited from accepting payment by the company of associated expenses unless pre-approved by authorized members of Research management.

Morgan Stanley may make investment decisions that are inconsistent with the recommendations or views in this report.

To our readers based in Taiwan or trading in Taiwan securities/instruments: Information on securities/instruments that trade in Taiwan is distributed by Morgan Stanley Taiwan Limited ("MSTL"). Such information is for your reference only. The reader should independently evaluate the investment risks and is solely responsible for their investment decisions. Morgan Stanley Research may not be distributed to the public media or quoted or used by the public media without the express written consent of Morgan Stanley. Any non-customer reader within the scope of Article 7-1 of the Taiwan Stock Exchange Recommendation Regulations accessing and/or receiving Morgan Stanley Research is not permitted to provide Morgan Stanley Research to any third party (including but not limited to related parties, affiliated companies and any other third parties) or engage in any activities regarding Morgan Stanley Research which may create or give the appearance of creating a conflict of interest. Information on securities/instruments that do not trade in Taiwan is for informational purposes only and is not to be construed as a recommendation or a solicitation to trade in such securities/instruments. MSTL may not execute transactions for clients in these securities/instruments.

Morgan Stanley is not incorporated under PRC law and the research in relation to this report is conducted outside the PRC. Morgan Stanley Research does not constitute an offer to sell or the solicitation of an offer to buy any securities in the PRC. PRC investors shall have the relevant qualifications to invest in such securities and shall be responsible for obtaining all relevant approvals, licenses, verifications and/or registrations from the relevant governmental authorities themselves. Neither this report nor any part of it is intended as, or shall constitute, provision of any consultancy or advisory service of securities investment as defined under PRC law.
